

Long Distance Relationship

A
Got this telescope, it's all shiny and new
D
It's supposed to help me see up close to You
A
Now, You might call me, maybe to the alter
D
But I pray You don't, 'cause I just might falter
E (hold)
So, let's keep it uncomplicated

A
I'm in a long distance relationship with You
D E
So, You do Your thing, and I'll do mine
A
I'm in a long distance relationship with You
D E A D
And we'll get together from time to time

You look awful close in this looking glass
But I'll pack it up once the storm has passed
I need to see Your radiance replete
Pack my soul up, ship me off of this street
But, let's keep it uncomplicated

chorus

F#m D
Put all my love in a tiny box
E D
Buried it deep beneath a pile of rocks
F#m D
Please dig me up from this cold, cold ground
E D
And wake me up with Your trumpet sound
E (hold)
Yeah, Your love is uncomplicated

chorus (2x - breakdown 1st)

A
Got this telescope, it's all shiny and new
D E A
It's supposed to help me see up close to You
